

150 kW air handling unit can connect to your existing chilled water circuit or to an Andrews packaged water chiller, heat pump or boiler. These units are fitted with fan speed controllers and internal condensate pumps.

### Specifications

|                                  |                                  |
|----------------------------------|----------------------------------|
| <b>Nominal cooling capacity</b>  | 150 kW 511,800 btu               |
| <b>Nominal heating capacity</b>  | 300 kW 1,023,600 btu             |
| <b>Air flow (max)</b>            | 20,160 m <sup>3</sup> /hr        |
| <b>Power supply</b>              | 415 V 3 ph 50 Hz N+E Run 20 A/hr |
| <b>Plug type</b>                 | BS4343 5 Pin 32 A                |
| <b>Noise level (max)</b>         | 84 dBA @ 1 metre                 |
| <b>Weight</b>                    | 934 kg                           |
| <b>Dimensions (L x W x H)</b>    | 2,260 x 1,980 x 1,700 mm         |
| <b>Duct Length</b>               | 50 metres                        |
| <b>Duct size</b>                 | 2 x 600 mm                       |
| <b>Average power consumption</b> | 14.3 kW/hr                       |
